SUMMARY

Full-stack developer with a strong foundation in Data Structures and Algorithms (450+ problems solved across LeetCode and Codeforces) and hands-on experience building and deploying production-grade MERN applications. Experienced in building responsive, scalable web applications using React.js, Node.js, Express, and MongoDB, with practical exposure to AI-integrated systems via the OpenAI API.

SKILLS

Programming	C, C++, Java, Python, JavaScript
Web Development	HTML, CSS, JavaScript, React.js, React Router DOM, Vite, Node.js, Express.js, REST APIs
Database	MongoDB
Tools	Git, GitHub, Postman
Concepts	Data Structures, Algorithms, Problem Solving, MVC Architecture

WORK EXPERIENCE

Full Stack Developer Intern June 2026 – Present

SN Verse Software Solution, Bilaspur, Chhattisgarh (Remote/Hybrid)

- Built **RoadTech Rentals** ([Live](#), [GitHub](#)), a production website for a road construction machinery rental client managing a 70+ unit fleet across major brands (Wirtgen, SANY, Bomag, XCMG), using React, Vite, and React Router DOM.
- Designed a fully componentized architecture with centralized fleet data and a B2B enquiry flow for industrial clients; deployed live on Vercel.
- Built **Desi Kalewaa** ([Live](#), [GitHub](#)), a bilingual (Hindi/English) production website for a 15-branch Chhattisgarhi restaurant chain.
- Developed a multi-step checkout flow supporting UPI, Card, Net Banking, and COD payment modes, plus dynamic location-based UI elements with custom CSS animations.
- Maintained strict component/CSS separation and centralized site-data files (`siteData.js`) across both projects for fast, code-free content updates; deployed to production with a custom domain.

PROJECTS

SkillBridge AI – Intelligent Skill-Based Hiring System April 2026

[GitHub](#) | [Live](#)

Tech Stack: React, Node.js, Express, MongoDB, OpenAI API

- Architected and developed a full-stack web application automating candidate screening through AI-driven skill assessment.
- Integrated the OpenAI API to analyze resumes and extract structured technical skills with confidence scoring.
- Built a dynamic test-generation module that creates personalized assessments based on each candidate's skill set.
- Designed RESTful backend APIs using Express.js following MVC architecture and implemented secure JWT authentication with bcrypt.
- Developed a responsive frontend with React and Tailwind CSS, implemented a weighted job recommendation engine, and deployed the frontend on Vercel and backend on Render.

TurnItGreen April 2025

[GitHub](#) | [Live](#)

Tech Stack: HTML, CSS, JavaScript

- Developed an e-waste recycling platform enabling sustainable buying and selling of used electronics among college students.
- Designed an intuitive, low-cost marketplace flow to make recycled electronics more accessible to students.
- Built using HTML, CSS, and JavaScript with a fully responsive layout.

CO-CURRICULAR

• **Web Development Mentor – DSTL-KIET** Oct 2024 – Present

- Mentored students in Web Development focusing on JavaScript and React.js
- Guided UI/UX design fundamentals and hands-on project development

• **Java Coordinator & Mentor – CPBYTE-KIET** Oct 2024 – Present

- Led Java and Data Structures sessions, mentoring students in problem solving
- Conducted coding discussions and supported collaborative technical learning

EDUCATION

2024 - Present B.Tech CSE, **KIET Group of Institutions, Ghaziabad** (CGPA: 8.4)

COMPETITIVE PROGRAMMING

LeetCode	350+ problems solved, Rating: 1579 (Max: 1617)	Profile
CodeChef	Rating: 1367 (Max: 1367)	Profile
Codeforces	50+ problems solved, Rating: 633 – Newbie	Profile

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- INNOTECH'25 IT Certificate
- Hack-O-Clock 2026 (IILM Hackathon) – Top 15
